Arcadia administers development activities regulated in the Florida Building Code through an interlocal agreement with the Desoto County Building Official. A Building Permit is required for any new construction, addition, change or repair to a building or structure, or for site improvement such as a pool, potable water or sanitary sewer service line. The City utilizes a Utility Clearance Certificate to ensure that local utility system standards have been met as prerequisite to the unified City-County building permit review. After City approval of the Utility Clearance Certificate Application, a copy must be included as part of your Desoto County Building Permit Application.
